

# HOW WE ASSIST AGC MEMBERS AROUND OUR REGION

## SHARE BEST PRACTICES

We are working with CTE programs across the state, are knowledgeable of the best practices in place, and can advise the appropriate use based on scale of program.

## CAREER AND TECHNICAL EDUCATION

- Advisory committee partners
- Curriculum information
- Guided career pathway resources
- Classroom materials that promote equity and inclusion
- Support developing a program of study
- College and apprenticeship visits
- Student field trips, site tours, job shadows
- Student clubs/chapters
  - Student leadership
  - Community outreach projects
- Sample coursework that ties foundational skills to industry skills
- Information on how core curriculum courses promote success in the industry
- Support Measure 98, student success goals

## ASSIST MEMBERS TO SERVE ON INDUSTRY ADVISORY COMMITTEES

- Be a resource to provide quality advocates to help lead and support CTE programs
- **Recommend curriculum:** Show teachers curriculum that is being used nationally and make recommendations on what works
- **Recommend Course Selection:** Help to establish course selection for career pathway endorsement and help to create programs of study

## YOUTH OUTREACH

- Social media campaign: #WeBuildOregon
- Career expos (with required student preparation)
- Youth empowerment summits
- Career panels

## RESOURCES

- **Website:** [www.build-oregon.com](http://www.build-oregon.com)
- Classroom and advising materials
  - Educational tool kits: wages, career, education
  - Lesson plans that connect theory to practices
  - Posters that inform, promote equity and inclusion
  - Informational trading cards and posters
