For nearly 100 years, the AGC Oregon–Columbia Chapter has been the premier professional association for contractors in Oregon and SW Washington, representing the best of the best in commercial construction. Together we’re setting the bar for quality and safety.

AGC’s programs have been developed with the guidance of contractors and other professionals who are the best in the commercial construction industry. We’re committed to enhancing the performance of our members, representing their interests, and building a better climate for construction.

Give us a call today.

We’d like to put our expertise to work for you!

---

Since 1922, the AGC Oregon-Columbia Chapter has served as the voice of the commercial construction industry. The association provides its members with a forum for exchange of ideas and services designed to enhance the professionalism of the construction industry, including workers’ compensation and health insurance; legislative and governmental representation; safety and loss control consulting; training and apprenticeship programs; and education and pension programs. The chapter also sponsors AGC University, which provides professional development training to the commercial construction industry.
