Certified Erosion & Sediment Control Lead Certification (CESCL)

Hosted by: AGC Oregon Columbia Chapter

Become Certified Erosion & Sediment Control Lead (CESCL) certified according to WA Ecology BMP C160 and meet the 1200C and 1200CN Erosion & Sediment Control Inspector (ESCI) requirements and ODOT’s ESCM Requirement. First day of the two day course is in the classroom and the second day starts in the classroom and ends in the field with BMP installation and demonstration.

Coffee will be provided both days. Be prepared on August 19th for the field component of the class.
