SPEAKERS:

- **Marcus Klein**, Project Manager, Fortis Construction

Join this meeting with our general contractor guests and our friendly attorney as we dig into what can, could, and will inevitably go wrong. Overcome your biggest fears by learning more about how the GC looks at a big job and their expectations from YOU, the EXPERT!

HOW TO PREPARE FOR WHAT IS AHEAD OF ME:

1. I've got the job...during the meeting they asked if I read the General Conditions?
2. How do you do certified payroll on the program the GC has to use?
3. OCIP (owner-controlled insurance program): What if I figure my hours too high? How does this work?
4. Where will I get more workers if the schedule is compressed, and no experienced person is available?
5. What if I start to hold up the scopes that come behind me?
6. They keep sending me RFIs and ASIs, and I am buried. I can't keep up with my pricings. How does this part work? How much time can I take? What do I do?
