The Associated General Contractors Oregon-Columbia Chapter **SIR Awards** program started in 1972. The stated purpose has remained unchanged—to acknowledge individuals, organizations, and agencies for their outstanding skills, conduct, abilities, and accomplishments, and to promote good public relations for our industry by making the public aware of our involvement in and contributions to our communities and society.

**SIR** represents our core values of Skill, Integrity, and Responsibility.

To win this prestigious award, a nominee must have exhibited these values in the following manner:

**SKILL** – The necessary technical knowledge and practical business experience, as applied to a person's particular firm or group of undertakings, to enable him/her to carry them to completion in a quality and economical manner.

**INTEGRITY** – Consistently and persistently complying with the spirit as well as the letter of contracts and handling every transaction with fairness and honor.

**RESPONSIBILITY** – The financial resources to meet all commitments, as well as the equipment and organization for satisfactory performance of all undertakings.
